

Affordable in-house colour production

Productivity boosting speed, functionality and reliability

Workflow smoothing solutions and flexibility

Sensitive data stays secure

Cut costs while being environmentally responsible

Get more power and save money

Save time with the XC4150's integrated software and solutions. Stay productive with print and scanning speeds fast enough to keep work moving. Look professional with gorgeous colour.

- Brilliant colour in an affordable, space-saving device
- Up to 50 pages per minute[†] print speeds
- Spend less time on supplies with high-yield toner capacity and shake-free science
- Expandable universal input trays

Speed for productivity with the functionality and reliability you need

Productivity stays high when even large color print jobs complete quickly. Thanks to print speeds of up to 50 ppm.

Minimise wait time with XC4150's ability to print a single colour page in as little as 5 seconds. Convenient direct printing from flash drives, network drives or online servers save you even more time.

Power through complex print jobs with large, high-resolution photos and graphics. The powerful print controller has the processing power you need built-in.

Digital workflows and paper documents won't slow you down. The XC4150 scans up to 60 ipm, combined with the powerful quad-core processor, your information is captured and made available to you and your network applications fast.

Work from wherever, print where you want with mobile printing from iOS, Android and Windows Mobile devices and optional wireless and NFC direct mobile printing from smartphones and tablets. The XC4150 is also Google Cloud Print, Apple Airprint 1.5 and Mopria ready.

Better access for all with the tilting eTask panel that makes the interface viewable for users at all heights, drawers and paper guides that move effortlessly, and standard headphone jack and talk-back features to help users with limited vision engage with the device[‡].

Look sharp for less with gorgeous colour and professional finishing

Colour so accurate and affordable, you can print colour in-house. You can match all of your brand colours and have accurate colour output without having to pay a premium.

Lexmark Colour Replacement combines spot colour replacement and RGB replacement for precision matching of critical colours. PANTONE® calibration and embedded colour sample pages to help you nail perfect colour at the design stage. Lexmark Colour Replacement combines spot colour replacement and RGB replacement for precision matching of critical colours. Lexmark's 4800 colour quality is ultra-sharp even at full speed.

Less hands on hassle with a high input capacity with up to 2,300 sheets of input capacity, paper is less likely to run out, so you don't have to wait or intervene to finish printing.

Improve your productivity with the XC4150 that keeps on running

- Toner cartridges yield up to 20,000 pages
- Photoconductor, developer, and fuser last up to 150,000 pages
- ► No shake UnisonTM Toner cartridges mean perfect prints to the last page without interruption

Advanced scanning technology

Connect your digital systems to your unstructured content with ease. The advanced scanning technology on the XC4150 makes it fast and hassle-free.

- Improve scanning productivity and capture efficiency by reducing the time involved in manual document preparation and automatically enhancing the quality of scanned images with the Lexmark VirtualReScan (VRS) integration option§
- Scan a stack of mixed sized originals at full speed
- Keep things fast and file sizes small with colour detection that scans in mono if no colour is found
- Reduce file sizes and maintain information accuracy with Mixed Raster Content (MRC) file compression
- Achieve accurate, high resolution images with Charged Coupled Device (CCD) sensors and four-piece optical glass lenses
- Don't waste time restarting a job. Page-level jam recovery picks up where the job left off

§ Virtual ReScan integration with Lexmark TotalAgility

Workflow smoothing solutions

Bridge the gap between your paper documents and software systems with the fully-configurable device-based apps. The built in productivity solutions future-proof your investment.

Standard device-based apps shipping with this series include1:

1

AccuRead OCR

In less time than it takes to enter data manually, your organization can create searchable files or editable content using the included AccuRead OCR. Other vendors charge extra for this critical capability.

Scan Centre

One app to send your scanned documents to multiple destinations simultaneously with optional delivery confirmations.

Forms and Favourites

Keep frequently used forms and documents easy to access and save money by eliminating preprinted forms.

Card Copy

Capture both sides of ID/ credit cards, print on one side of paper and save to a network folder.

See the possibilities with our intuitive interface

Minimise the need for training with the familiar modern tablet-like capabilities of our eTask interface on a bright 17.8 cm colour touch screen. Use swipe and touch gestures to navigate the intuitive interface to access convenient features, including:

- Preview your entire print job
- Print Microsoft Office and other file types from USB or mobile devices
- Customisable shortcuts and bookmarks
- Realise your return on investment with true integration
- Access corporate address book for quick document routing
- Enable user tracking, accounting and permissions for cost and print management

Address Book

Manage the device's internally stored user data, contacts and scan destinations from the e-Task touch screen or the embedded web server.

XC4150

1. Intuitive colour touch screen with new eTask interface A bright 17.8 cm screen uses familiar swipe and touch gestures, minimising training time to get users up to speed.

2. Direct printing Microsoft
Office files and other
document and image
types print right from
flash drives. You can even
preview jobs on the eTask
screen prior to printing.

3. Unison™ Toner system with long-life supplies
Unison™ Toner delivers
consistently outstanding
image quality plus longlife system reliability and
amazing sustainability
in a high-yield, noshake design.

4. Software solutions Combine device based capabilities with additionally purchased Lexmark fleet management tools and your existing software and technical infrastructure to form the Lexmark smart MFP ecosystem. Its adaptability future-proofs your investment in Lexmark color laser technology.

 Expandable input Print on multiple paper types and boost input capacity to 2,300 sheets

Sensitive data stays secure

Authorise and authenticate who and what gets access to your network along with remote monitoring and management.

Protect your device on all fronts with port and connection filtering to limit active access and encryption and wiping of the optional hard disk to secure sensitive print job data. Digital signatures on firmware updates keep hackers at bay.

Authentication to fit your protocols from badge readers, PIN or passwords. Once users are authenticated the connect to your network is fully secure. If user authentication fails the eTask panel shuts down to protect your device settings.

Put a stop to data leaks on the standard hard disk with 256-bit AES encryption and encryption keys stored in the MFP's memory, not the hard disk. Data is almost impossible to read if the hard drive is removed.

Cut costs while being environmentally responsible

Save power with multiple power saving modes. Sleep mode uses less than 3 watts between jobs. Hibernate mode uses less than half a watt during scheduled on/off periods.

Save paper and toner with no hassles. Standard double-sided printing, printing images a lighter shade with the ColourSaver feature that still leaves text dark and readable and Lexmark's Eco Copy solution are just some of the eco-friendly options.

Smarter toner saves energy and more. Lexmark UnisonTM Toner fuses at a lower temperature that requires less energy. Through the free and easy Lexmark Cartridge Collection Program (LCCP), ship empty cartridges back to our recycling centers for sustainable recycling.

Lexmark Sustainability

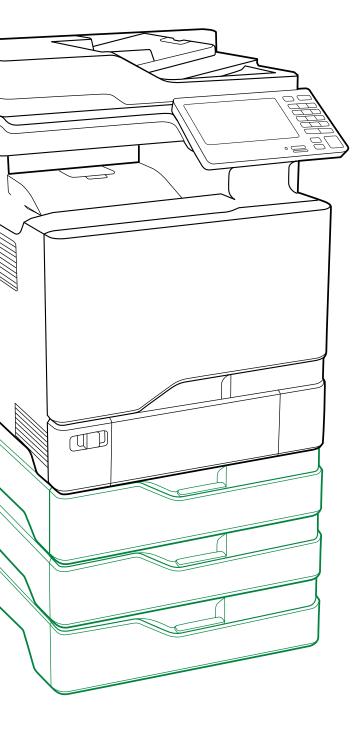

For Lexmark, commitment to the environment isn't a marketing tagline, it's a core value backed up by real action and results. We are forward thinking, innovative, and driven to sustain a healthy planet for generations to come. For our customers and partners we bring this passion, our leading technology and a deep understanding of industry-specific business processes to continuously improve their efficiency as well as our own.

Lexmark products meet globally recognised environmental standards**.
